

Ayush Dakwal

Cybersecurity & AI

Kangra, Himachal Pradesh, 176209, India | ayush.dakwal23@st.niituniversity.in | 9317085341 | [LinkedIn](#) | [Github](#) | [Portfolio](#)

I build AI-driven and security-focused solutions to tackle real-world cybersecurity challenges.

Objective

Cybersecurity-focused professional with a growing interest in artificial intelligence, digital security, and emerging technologies. Eager to learn, develop practical technical skills, and gain hands-on experience in cybersecurity. Motivated to solve real-world problems, continuously improve, and contribute to secure and innovative technology solutions. Committed to utilizing my skills to further the mission of a company.

Skills

Java | JavaScript | Python | TypeScript | HTML | CSS | Next.js | React.js | Node.js | Express.js | REST APIs | MySQL | MongoDB | PostgreSQL | SQLite | GitHub | Git | Docker | Jenkins | Prisma | GitHub Actions | Linux | Deep Learning | CNNs | Vision Transformers (ViT) | Transfer Learning | Model Evaluation (AUC, CLLR, HTER)

Professional Experience

Cyber Security Intern, 1Stop.ai, Remote

July 2026 to Aug 2026

- Delivered 3 cybersecurity projects covering phishing simulation, Android penetration testing, and digital forensic analysis.
- Tested 5 OWASP Android vulnerability categories (M1–M5) using a mobile application security testing lab.
- Performed forensic analysis using Autopsy, extracting browser history, deleted files, registry data, and metadata from forensic evidence.

Front-End Web Development Intern, 1Stop.ai, Remote

July 2026 to Aug 2026

- Built 3 web development projects covering a portfolio website, Bootstrap/HTML calculator, and To-Do list.
- Developed 3 functional web applications using front-end technologies and documented their implementation and outputs.
- Applied structured development workflows covering design, implementation, testing, and documentation.

Projects

FORENSIC-AI: An Intelligent Deepfake Video Detection for Digital Evidence

- Tackled the challenge of authenticating manipulated digital evidence through an AI-based deepfake detection system.
- Fine-tuned a Vision Transformer (ViT) and evaluated detection performance across 3 datasets to improve generalization for forensic use cases.

ZeroIAM

- Resolved the limitations of traditional perimeter-based security by implementing a Zero Trust access approach.
- Developed a platform that evaluates 2 key factors user identity and device security posture before granting resource access.

Security Studio

- Designed a centralized security workflow platform, building a privacy-focused workspace with 38 security modules.
- Built a self-hosted workspace supporting 50+ security events/workflows while keeping sensitive operations local.

Education

NIIT University, Jaipur

2023 to Present

B.Tech Computer Science (Cybersecurity)

Aadhunik Public School (CBSE), Dharamshala

2021 to 2022

XII

Montessori Cambridge School (CBSE), Pathankot

2019 to 2020

X

Licenses & Certifications

Junior Cybersecurity Analyst, Cisco Networking Academy

Jun 2026 to July 2026

Cybersecurity Essentials, Cisco Networking Academy

Jun 2026 to July 2026

Leadership Experience

Secretary, Rangmanch NU

- Managed and coordinated club activities and events.
- Led team operations and contributed to event planning and execution.

Accomplishments

- Secured 1st Prize in Theatre Competition at GD Goenka University
- Secured 2nd Prize in Nukkad Natak Competition at Malaviya National Institute of Technology (MNIT), Jaipur
- Secured 2nd Prize in Nukkad Natak Competition at The LNM Institute of Information Technology (LNMIIT), Jaipur
- Secured 2nd Prize in Nukkad Natak Competition at BML Munjal University
